Medical Wireless Camera

MetaSCOPE^{CAM}

Main Features

Wireless High-performance Camera

Completely wireless, using your own battery pack to power MetaSCOPE^{CAM}. 4K camera optimized for medical and dental applications.

Remote Controller

Using the remote control, you can manually adjust zoom and focus and also set autofocus.

Zoom in and out

No need to change lens for different magnification. You can select 2-5x or 4-9x for the best application.

Installation

Easy Installation

Easy and quick DIY installation in a short time.

Attachable Anywhere

Install MetaSCOPE^{CAM} wherever you want. The mount is attachable to curved and flat surfaces.

Easy-to-carry around

Compact and light case optimized for traveling everywhere.

Usability

Up to 3 Cameras

You can stream and save your procedures from 3 different angles and use them in various applications such as education, training, and so on.

Windows Application

Wireless control over important features such as recording, snapshot, zoom, focus, screen switch, etc.
